

# Plot Your Path to Net Zero

A focus on funding in numbers

We consulted with **>60** UK businesses including **manufacturing, transport** and the **public sector**

Here's what they told us:

**75%**

feel that government policies **do not** offer enough incentives for investment in decarbonisation

**70%**

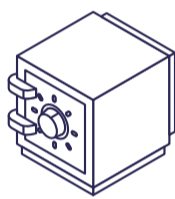

are concerned about the potential cost impact of net zero

However...

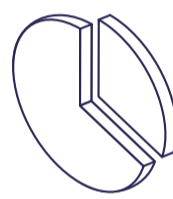

**72%**

agreed that the climate benefits of funding net zero plans will outweigh the cost

**67%**

will use funds from within their business to finance energy efficiency and sustainability projects

**70%**

expect to allocate **up to 15%** of annual turnover to this with **one in six** saying **20%**

When asked who should contribute the majority of the funding for the net zero transition, the top answers were:

- ✓ **Large, energy intensive businesses**
- ✓ **The government**

**82%**

agreed that financial institutions will have a vital role to play in funding net zero

## Here when you need us

Finding funding is one of the major obstacles to progress on the path to net zero.

**Why not talk to us about your requirements?**

We can help you develop, fund and implement your plans.
